N.A.B.S. NEEDS TO RELOCATE FACILITY

In April, the City of Alvin will be adopting an ordinance pertaining to all kinds of animals (from chickens and livestock to cats and dogs, etc....) in the city limits where NABS resides. The proposed kennel licenses are not adequate for the NABS organization to continue at the present location so Pam and the fur kids will need to move to her property in Liverpool sooner than she had planned. Consequently, there will be many needs and expenses to make this happen. Please if you know a friend, family member, neighbor, or business that could possibly help accomplish this then please contact Pam at nabstx2004@aol.com or call 281-330-5238.

CARE OF YOUR OLDER DOG

There are many ways to help your older dog live a longer life. Take him out more often to relieve his bladder. If he shows signs that he is having problems eating be sure to take him to your veterinarian to check his teeth. Encrusted teeth can be painful. Your veterinarian may suggest extracting the problem teeth or replacing the type of food he is eating. Provide your dog with a cozy bed in a warm spot to help cushion his achy bones. Always ask your veterinarian questions, if you see any changes in your dogs health. The care you give will lengthen your dogs life.

Worlds Best Drug Sniffing Dogs.....A US Customs Labrador named "Snag" has made 118 drug seizures worth a canine record \$810 million. The greatest number of drug seizures by dogs in 969 in 1988. IN ONE YEAR! The team of "Rocky" and "Barco" patrolled the Texas and Mexico border, alias "Cocaine Alley." They were so good that Mexican drug lords put a price of \$30,000 dollars on their heads.

CONGRATULATIONS

Congratulations to our teen volunteer Tessa Miller for being accepted into the Bradford School of Business. It is an 18 month program to be a Registered Vet Tech. Way to Go Tessa, I know you have the love for animals and the strength to get through this ..we are very Proud of you.

HAPPY TAILS

OTIS AND FAMILY

ISABELLA AND FAMILY

DAISY AND FAMILY

DALTON AND FAMILY

MAMA DINAH AND FAMILY

DEVAN AND FAMILY

Dogs cannot see as well as humans and are considered color blind. A dog sees objects first by their movement, second by their brightness, and third by their shape.

BEFORE

UPDATE

What a transformation!

Jinxy came to us covered in Sarcoptic mange and not very happy. He had been picked up running on the freeway. After love and care in his forever home he came back in to Petco for a visit. He was a different little guy to say the least. Just look at that beautiful coat and smile on his face. We are so happy for you little guy.

AFTER

JOINT PAIN

Anti-inflammatory medications are often prescribed by a veterinarian to relieve dog joint pain. However potential side effects of these drugs, including liver and kidney problems. Vomiting and excessive urination has turned to finding other means to help relieve joint pain. In some studies the natural remedies can be as effective as prescription drugs without the adverse reactions of chemical-based drugs. Ask your vet about other choices.
