Paddy in April.

Rescue is

N.A.B.S. Volunteers Needed at League City Petco
Every Saturday—11:30 -4:00 p.m. contact: DGH48@AOL.COM

What if N.A.B.S. had
No volunteers to transport
rescues to Petco?

What if N.A.B.S. had
No supporters, sponsors or
friends for the rescues?

What if.....it would mean No
more rescues saved for loving
homes...they would be eu-
thanized in Kill Shelters,
some in gas Chambers.

Together we can Save Lives!

Thelma rescued from a gas chamber in March—Thelma thriving and Happy w/toys!

Louise

N.A.B.S. regrets to inform you Louise did not make it at her foster home with Thelma. Young puppies coming out of a shelter can contract many diseases that may be irreversible by the time we get them.

GASSING KILLS

N.A.B.S. learned AFTER rescuing Heidi Jean and Hunter, two little senior dachshunds, from the GARLAND shelter that it had actually dismantled their gas chamber a couple of weeks BEFORE we rescued them. HOWEVER, GARLAND'S UPGRADE WAS TO THE HEARTSTICK FORM OF EUTHANASIA, which is no less cruel and inhumane! That was the certain fate that awaited Heidi Jean and Hunter and the many others at the GARLAND shelter DAILY!!

DUE TO THESE INHUMANE FORMS OF EUTHANASIA STILL BEING USED IN TEXAS IT IS N.A.B.S.' INTENT TO FOCUS ON RESCUING FROM SHELTERS IN THOSE CITIES AND COUNTIES IN TEXAS.

NOAH'S ARK BAYOU SANCTUARY ANIMAL RESCUE IS A NO KILL RESCUE ORGANIZATION. PLEASE COMMIT TO SPONSOR SO WE CAN RESCUE MORE FROM THOSE SHELTERS OF HORROR. ONCE WE HAVE A COMMITMENT FOR SPONSORSHIP THEN WE WILL ARRANGE TO RESCUE ANOTHER FACING THIS INHUMANE FATE.

PLEASE STAY INFORMED...READ NEXT PAGE

PLEASE JOIN N.A.B.S. AND SEND YOUR PETITION LETTER TO THE FOLLOWING PERSONS AND STOP THESE FORMS OF EUTHANASIA PERMANENTLY, FOR THE LOVE OF ALL ANIMALS: Page 7

- o The President of the United States
- o The U.S. Senate
- o The U.S. House of Representatives
- o President Of The ASPCA (Ed Sayers)
- o Vice President Of The ASPCA (Dr. Randall Lockwood)
- o President Of The HSUS (Wayne Pacelle)
- Vice President Of The HSUS (Heidi Prescott)

PETITION LETTER TO SEND OUT:

(or you can sign this petition on www.change.org site)

PETITION Created By

Dear Lawmakers and Animal Protection Officials,

BAN ALL HEARTSTICKING AND GASSING METHODS OF ANIMAL EUTHANASIA IN AMERICA PERMANENTALLY!!!

3 million to 4 million dogs and cats will be killed at animal shelters this year and every year!!!

THIS IS UNACCEPTABLE!!!

Many animal shelters are still using the controversial methods of HEARTSTICKING and GASSING!!! Others are using ELECTROCUTION and DECOMPRESSION CHAMBERS!!!

Intracardial injections, commonly referred to as "heartsticks," are considered inhumane and cruel when performed on animals that aren't anesthetized or comatose. Using the "heartstick" method is painful because the needle containing sodium phenobarbital (a schedule II controlled substance used to euthanize animals) passes through the chest wall and several layers of muscle before puncturing the heart. If the euthanasia substance isn't carefully and accurately administered, an animal's lungs could be punctured, causing them to fill with fluid. Which is an even more cruel and painful way to die.

Current law dictates that ALL animals must be sedated or anesthetized to the state of comatose BEFORE receiving the heartstick. Many Shelters, especially Rural Shelters, DO NOT abide by this law. Intracardial injections are difficult to administer effectively on fully conscious animals because in the animal, the lungs and the heart are constantly moving, said Dr. Bonnie Beaver, a veterinarian and professor of veterinary medicine who is considered a euthanasia expert by the American Veterinary Medical Association.

Gassing is a method where the animals are placed into a metal Gas Chamber. Then Carbon Monoxide is pumped into the Gas Chamber. Depending on the size and fitness of the animals, the size and condition of the Gas Chamber and the amount of Carbon Monoxide used, It can take anywhere between 10 and 40 minutes for the animals to die. During the process the animals are fully conscious. They have immense pain and suffering during the process they have convulsions and muscular spasms as they ingest the Carbon Monoxide. They begin to vomit and defecate only to ingest these bodily fluids as well as the Carbon Monoxide. Their SCREAMS OF AGONY go UNNOTICED by those that perform these HORRIFIC ACTS OF CRUELTY!!!
